HAMMERMILLS

W&K-Automation GmbH Hammermills distinguish themselves from the competition because they are versatile, operator friendly, safe and made of heavy duty stainless steel construction.

With W&K-Automation GmbH Hammermills being so versatile you can grind fresh or dried bread for crumbs, nuts, cake, biscuits etc. Just with the simple change of a sifting screen.

W&K-Automation GmbH offers Hammermills for a wide range of operations. Please contact us to discuss your needs.

Hammermills capacity vary as per product and grade of fineness.

The rates below are approximate and may vary as per shop conditions.
